FAJAR NUR KHOLIK

DIGITAL STRATEGIST | SOCIAL & MARKETING INTELLIGENCE | DATA ANALYTICS

Jakarta, Indonesia | fajarnkholik@gmail.com | linkedin.com/in/fajarnurkholik

PROFESSIONAL PROFILE

Agency-experienced Digital Strategist (Data Analyst) with 2+ years at Burson (WPP Group), supporting client assignments across multiple industries. Specializes in social listening, reputation and issue monitoring, campaign performance analytics, social media audits, and competitive intelligence. Owns the end-to-end analytical process from data collection, cleaning, and classification to visualization, insight development, and client-ready reporting. Combines analytical thinking with practical automation to support clearer marketing and communications decisions.

PROFESSIONAL EXPERIENCE

Digital Strategist (Data Analyst) | Burson (WPP Group), Jakarta

Jul 2024 – Present | Full-time: Apr 2025 – Present | Internship: Jul 2024 – Mar 2025

- **Social Listening & Consumer Intelligence:** Conduct recurring multi-platform listening and audience research; develop keyword queries, classify sentiment and topics, and identify audience interests, category trends, and emerging conversations.
- **Reputation & Issue Intelligence:** Monitor digital discussions for issue developments, volume spikes, sentiment changes, and narrative shifts; prepare monitoring trackers, key-conversation summaries, and stakeholder updates.
- **Campaign Performance Analytics:** Evaluate campaign KPIs, reach, impressions, views, engagement, and creator/KOL performance to explain content effectiveness and provide actionable performance learnings.
- **Social Media Audit & Competitive Intelligence:** Review content pillars, formats, messaging, engagement, and platform usage; benchmark share of voice and competitor activity to identify communication gaps and audience preferences.
- **End-to-End Analytics & Reporting:** Collect, clean, validate, reconcile, classify, analyze, and visualize multi-platform data; translate quantitative and qualitative findings into weekly/monthly reports and insights supporting strategic discussions.
- **Data Analytics & Automation:** Develop practical workflows using Python, Apify, Google Apps Script, and LLM APIs to support data preparation, taxonomy-led classification, and consistent reporting.

EXPERTISE & TOOLS

Digital Intelligence: Social listening, consumer insights, reputation monitoring, topic & sentiment analysis, share of voice, competitive benchmarking, crisis tracking.

Marketing Analytics: Social media audits, campaign & KPI reporting, KOL/influencer evaluation, engagement and content performance analysis.

Data & Automation: Python, Apify, Google Apps Script, Excel, Google Sheets, LLM API workflows; Emplifi, Brandwatch; reporting in PowerPoint/Google Slides. Familiar with Looker Studio, Tableau, and Power BI.
